

## OUR VISION

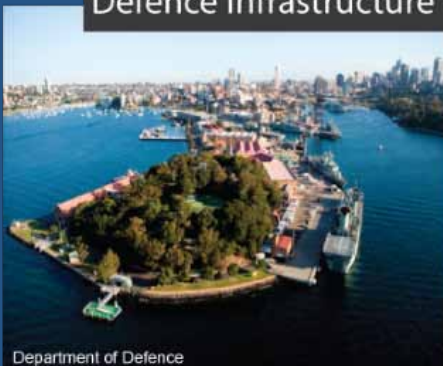

**SADIG** provides a focus and a forum for Sydney's aerospace and defence industry facilitating their growth. We work closely with industry associations, alliances and government agencies to attract a higher percentage of defence and aerospace business into the Greater Sydney Region.

## OUR PURPOSE

- Identify new additional strategic opportunities which can only be tackled on a collaborative basis
- Provide feedback to industry members and other stakeholders, including State and Commonwealth Governments, on the make-up and health of the aerospace and defence industry sectors
- Identify and communicate key factors and economic trends
- Help to facilitate industry access to Government support programs and services

## Established

### Defence Infrastructure

Department of Defence

## Smart

### Industry

Turbomeca Australasia

## OUR CAPABILITIES

Sydney's well established industrial base supplies products and services across the breadth of the aerospace and defence sectors. From aero-engine assembly and maintenance, through to microcircuit development, advanced composites manufacturing, to naval ship repair and maintenance and developing capabilities.

## OUR STRUCTURE

**SADIG** has an Executive Committee with three special interest groups and a secretariat supported by Regional Development Australia Sydney.

## OUR ACTIVITIES

**SADIG** coordinates key forums, workshops and networking events. It acts to improve and communicate across industry, government, research and education stakeholders.

## OUR KEY PARTNERS

## OUR MEMBERSHIP

The Sydney Aerospace and Defence Interest Group facilitates and supports a growing list of industry associations, alliances, companies and research bodies involved in industry defence and aerospace sectors in the Greater Sydney Region.

## ACCESS TO EMERGING OPPORTUNITIES

- Regular events and working group meetings to help members identify partners, customers, suppliers and supply chain opportunities
- Identification of strategic opportunities which can be pursued individually or by member collaboration
- Business capabilities through searchable website listings

## NETWORKING, INDUSTRY DEVELOPMENT & INNOVATION

- Identifying industry opportunities and helping members to position themselves appropriately
- Identifying industry needs and the means to satisfy these – skills, market access, market intelligence
- Facilitating adoption of new innovation processes and practices
- Providing opportunity through roundtables for future innovative industry opportunities
- Regular updates on latest news & events
